### Loan Terms - Interest

It is important to understand the following terms related to interest.

<u>Unsubsidized</u> – If interest is unsubsidized, the borrower is responsible to pay all interest that accrues.

### Loan Repayment Estimates

Your Loan Exit letter provides you with **estimated** repayment information for federal and SPU Institutional loans based on the total borrowed at SPU and the **estimated** savings if you pay more than the estimated monthly payment.

The following example is for a loan total of \$11,000 at 6.8% interest.

- A monthly payment of \$127 is required to repay the loan within ten years.
- This borrower could save over \$2,000 in interest by increasing their monthly payments by \$90 per month to repay the loan in five years.

Dire	ect/FFEL Loan Principal	\$11,000		Direct/FFEL Loan Interest Rate 6.8%

## Repaying Your Loans: Delinquency

Direct and FFEL loans offer various options and repayment plans to assist you with repayment. If you keep these options in mind and communicate promptly with your lender/servicer, you should be able to keep your loans current and avoid delinquency and default.

Student Financial Services can provide assistance with Perkins, Nursing and SPU Institutional loans.

Loans become delinquent when you fail to make your scheduled payment on time.

Consequences of delinquent loans:

- Late charges and fines may be assessed
- Delinquent status reported on your credit record monthly
- Increased risk of default

## Repaying Your Loans: Default

Federal (Direct/FFEL, PLUS) Loans go into default at <u>270 days</u> past due. Perkins Loans go into default at <u>240 days</u> past due.

#### **Consequences of Student Loan Default**

 Loan may be accelerated (entire balance of loan including all principal, interest, and fees become due; interest continues to accrue)

#### > Perkins, Nursing and SPU Institutional loans are accelerated at 120 days past due

- Lose eligibility for future federal financial aid
- Lose flexible loan repayment options & deferment eligibility
- Bad credit
- State-issued licenses can be withdrawn
- Income tax refunds can be withheld
- Wages may be garnished
- Interest continues to accumulate
- Ongoing collection activities, including addition of collection costs, collection fees and fines
- Legal action

# Repaying Your Loans: Resolving Default

> You must contact your loan servicer and establish a plan for satisfactory repayment.

- Regain financial aid eligibility with six monthly payments.
- Consolidating defaulted federal loan(s) will regain eligibility for financial aid and loan deferment.

Prior to consolidation, you may be required to make three monthly payments, or you must agree to repay the loan under Income-Contingent or Income-Based repayment plans.

 <u>Rehabilitation</u> regains eligibility for financial aid and loan deferment and removes the default from your credit history.

Nine consecutive monthly payments are required, as well as an agreement for each loan.

Rehabilitation is available for Direct Loans, FFEL Stafford, Grad PLUS, Perkins, and SPU Institutional loans.

#### **Repayment Plans**

Paying more each month will shorten the repayment term and reduce the amount of interest paid.

If you use a plan that reduces your monthly payment you will pay more in interest and may extend the repayment term.

# Repayment Plans: Direct/FFEL Stafford & Grad PLUS

You have the right to:

- Change repayment plans
- Pre-pay your loan at any time without fees or penalty
- Paying more than the scheduled monthly payment will not increase your monthly payment amount.
- Contact your loan servicer to discuss changing your repayment plan. In some circumstances, you may benefit from staying on your current plan.
- Compare plans: Loan Simulator at <u>Studentaid.gov</u>

# Repayment Plans: Direct/FFEL Stafford & Grad PLUS

#### **Three Basic Plans**

- 1. **Standard** repayment allows you to pay your loans over 10 years in equal monthly installments. This will be your repayment plan unless you select a different plan. Lowest lifetime costs. Best for borrowers with stable, adequate earnings.
- 2. Graduated repayment is designed for those who have a low salary early in their repayment period but anticipate future higher incomes. You start with lower monthly payments that increase over time.
- Extended repayment allows you to lower your monthly payments by extending your payments for up to 25 years if you borrowed more than \$30,000 in FFEL Program or Direct Loan Program loans—separately, not combined. Lowers monthly payments but has a much higher lifetime cost.
